TECHNOLOGY**

OUR MISSION

We are the low-cost provider of differentiated supply chain solutions delivering competitive advantages to our customers

We serve a diverse range of industries with a wide variety of components, including but not limited to: Railroad, PowerGen, Waterworks, Municipalities, Construction, Mining, Fluid Handling, Hydraulics, Electrical, Combustion, Fabrication and Instrumentation. Major markets served are in the USA, with export to Europe, Japan, and Australia.

We have forged long-term relationships with original equipment manufacturers in North America because of our ability to supply castings and parts that meet or exceed expectations. We offer several value-added services, including design assistance to convert weldments to castings. This early stage involvement identifies any casting design flaws, allowing us to maximize quality efficiencies and save our OEM's money.

- ▶ Delivering Superior Customer Service
- ▶ No commitment to buy until sample approved by customer
- ▶ World Class parts distribution stocking programs
- ▶ Component forecast inventory based on customer demand levels
- ▶ D & S Logistics distributes more than 1,000 unique part numbers
- ▶ Component availability

REPUTATION FOR PROVIDING EXCEPTIONAL SERVICE

OUR VALUES IN ACTION

- Integrity** – The Power of Honesty
- Excellence** – The Power of Quality
- Commitment** – The Power of Responsibility
- Teamwork** – The Power of Working Together

- ▶ Our Code of Conduct documents high ethical standards our company has upheld for more than 35 years molded by our founder Deoki Sharma
- ▶ First initiated in 1978
- ▶ Global company with global standards and expectations
- ▶ Living Our Values in Action as individuals and as a company

D&S CASTINGS SERVICES

- ▶ Engineering
- ▶ Sand Castings
- ▶ Investment Castings
- ▶ Lost Foam and Wax
- ▶ V Process
- ▶ Forgings
- ▶ Metal Stampings
- ▶ Machining and Finishing
- ▶ Powder coat painting, E-coating & plating
- ▶ Material selection: Ferrous & non-ferrous
- ▶ Assembly
- ▶ Customer Component Stocking Warehouse
- ▶ Distribution

TAKE ADVANTAGE OF OUR STOCK & HOLD
INVENTORY MANAGEMENT

THE RESULTS SPEAK FOR THEMSELVES

Providing Our Customers the **TOTAL PACKAGE** — Price, Technology and Capabilities

- 1** We're experts in VMI, JIT, assembly, packaging and bar coding services. We tailor our processes to meet your specifications.
- 2** The stock and hold value-added service offers customers an immediate cash-flow advantage coupled with the benefit of just-in-time (JIT) delivery.
- 3** Product comes into our New Jersey warehouse and are inspected before they are put into stock and made available to the customer.

Reliability Eliminate Lead-time
OTD 100% With Stocking Program
Rejection Rate <1 % To Zero Value
Added Services Engineering, Machining, Assembly

PRODUCTS

CASTINGS & MOLDING

CAD MODEL DEVELOPMENT AND PROTOTYPING

Foundry Engineers utilize software simulation to assure internal casting integrity and that all quality requirements are to customer specifications

SOURCES & FACILITIES

D&S CASTING'S TAIAN FOUNDRY

Our foundry is a joint venture, located in the High-Tech Development Area of China. This excellent geographic location, offers convenient access to transportation. Our Production capabilities include: sand system lines, 8 Molding machines, 4 Sand mixers core machines stations, Resin sand production line, 2 cupolas 7 tons capacity per hour, Electric furnace 1.5 ton capacity per hour.

Some of the other manufacturing facilities include Indian as well as China sources:

- ▶ Stainless Steel, Carbon Steel, Bronze & Aluminum Investment castings
- ▶ Steel, Aluminum & Bronze Forgings with Machining capabilities
- ▶ Fabrications
- ▶ Die castings
- ▶ Powdered Metal components
- ▶ Shell Molded Steel, Ductile Iron & Bronze castings
- ▶ V process castings

WAREHOUSE

- ▶ On-site inspection
- ▶ 65,000 sqft
- ▶ 5,000 tons of stock
- ▶ Die castings
- ▶ 1,200 SKU's
